

(g) *Numeric equivalent.* (1) If an otherwise eligible program measures academic performance using an alternative to standard numeric grading procedures, the institution must develop and apply an equivalency policy with a numeric scale for purposes of establishing ACG or National SMART Grant eligibility. That institution's equivalency policy must be in writing and available to students upon request and must include clear differentiations of student performance to support a determination that a student has performed at a level commensurate with at least a 3.0 GPA on a 4.0 scale in that program.

(2) A grading policy that includes only “satisfactory/unsatisfactory”, “pass/fail”, or other similar non-numeric assessments qualifies as a numeric equivalent only if—

(i) The institution demonstrates that the “pass” or “satisfactory” standard has the numeric equivalent of at least a 3.0 GPA on a 4.0 scale awarded in that program, or that a student's performance for tests and assignments yielded a numeric equivalent of a 3.0 GPA on a 4.0 scale; and

(ii) The institution's equivalency policy is consistent with any other standards the institution may have developed for academic and other title IV, HEA program purposes, such as graduate school applications, scholarship eligibility, and insurance certifications, to the extent such standards distinguish among various levels of a student's academic performance.

(iii) Documentation showing that the institution has actually awarded or plans to award a bachelor's degree in the requested major.

(3) In addition to the information in paragraph (d)(2) of this section, requests for designation of a liberal arts curriculum as an eligible major must include the information demonstrating that the liberal arts curriculum complies with the requirements described in paragraph (b) of this section.
